AUSTRALIA							
1	Australia New South Wales, Sydney	The Children's Hospital at Westmead	Complex pain clinic	https://www.schn.health.nsw.gov.au/find-a-service/health-medical-services/pain-medicine/chw	Natasha Haynes natasha.haynes@health.nsw.gov.au	- Ped. Nurse - Ped. pain med specialist - Ped. Physical therapist - Ped. Psychologist	- Outpatient services - Day treatment - Telehealth services - Hydrotherapy - Pharmacologic - Physiotherapy - Psychotherapy
	Program description	Complex and intractable pain is managed through an out-patient interdisciplinary (medical, nursing, psychology, physiotherapy) consultative service, a moderate intensity day program (T.A.M.E. Your Pain), a Tele-health service, and an inpatient medical and nursing consultative service. The service receives state-wide referrals from general practice and specialists. Inpatient admission occurs under the care of the primary team caring for the child with consultation from medical and nursing pain clinic staff.					
2	Australia Queensland, Brisbane	Queensland Children's Hospital	Interdisciplinary Paediatric Persistent Pain Service	https://www.childrens.health.qld.gov.au/service-queensland-interdisciplinary-paediatric-persistent-pain/	Dr. Mark Alcock Mark.Alcock@health.qld.gov.au	- Ped. anesthesiologist - Ped. Nurse - Ped. occupational ther. - Ped. Physical therapist - Ped. pain med specialist - Ped. Psychologist - Ped. Psychiatrist - Music therapist	- Outpatient services - Telehealth services - Occupational therapy - Pharmacologic - Physiotherapy - Psychotherapy
	Program description	We run medical clinics and interdisciplinary clinics. Our interdisciplinary clinics typically consist of an assessment phase and therapy phase. We practise an evidence-based sociopsychobiomedical approach, and individualise our care to our patient and family needs.					
3	Australia Western Australia, Perth	Perth Children's Hospital	Complex Pain Service	https://pch.health.wa.gov.au/Our-services/Complex-Pain	Anna Hilyard anna.hilyard@health.wa.gov.au	- Ped. anesthesiologist - Occupational therapist - Pain medicine specialist - Physical therapist - Psychologist - Rheumatologist - Teacher	- Outpatient services - Day treatment - Telehealth services - Occupational therapy - Pharmacologic - Physiotherapy - Psychotherapy
	Program description	The Complex Pain Service provides interdisciplinary care for children with chronic pain from across Western Australia using outpatient and day program models of care. Referral from a paediatric team at Perth Children's Hospital is required. Those families suitable for our group interdisciplinary cognitive behavioural program complete a 6-week intervention, with 12 months support (including formal reviews and informal booster sessions). Those not suitable for groups are					

#	Location	Hospital	Program	Website	Contact	Professionals	Services
		cared for in a shared care model by our team and hospital or community-based health practitioners. We work closely with the Department of Education and have a teacher embedded in our clinical team to support young people transitioning back to full time school.					
CANADA

	Program description	None provided					
5	Canada Alberta, Edmonton	Stollery Children's Hospital	Pediatric Chronic Pain Clinic	https://www.albertahealthservices.ca/findhealth/Service.aspx?id=1019352&serviceAtFacilityID=1074335	Bruce Dick, PhD Bruce.dick@ualberta.ca Tel: (780)407-1097 Fax: (780)407-3200	- Ped. Anesthesiologist - Anesthesiologist - Ped. Nurse - Ped. Physical Therapist - Ped. Psychologist	- Outpatient services - Telehealth - Acupuncture - Hydrotherapy - Pharmacologic - Physiotherapy - Psychological Treatment
	Program description	Young people with chronic pain (under 18) and their families are referred by their primary care providers. Our catchment area includes Northern Alberta, Northwest Territories, Yukon, and North Eastern British Columbia. Utilizing a biopsychosocial approach, we provide comprehensive care including, assessment and diagnosis, exercise program guided by physiotherapy, and cognitive behavioural therapy, individually and in group sessions (Pain 101). We have created Chronic Pain 35, a course approved by Alberta Education. This course allows high school students to obtain Grade 12 (senior secondary education) school credits for attendance and participation in our outpatient chronic pain self-management program. We also provide parent group education sessions.					
6	Canada British Columbia, Vancouver	BC Children's Hospital	Complex Pain Service	Not Provided	Tim Oberlander toberlander@bcchr.ca Sarab Randhawa srandhawa3@cw.bc.ca	- Ped. anesthesiologist - Ped. #	Location	Hospital	Program	Website	Contact	Professionals	Services
						- Ped. Psychologist	- Physiotherapy - Procedures
	Program description	Our Complex Pain Service offers nurse-MD consults, team assessments and ongoing care. We emphasize care that engages and builds community capacity to assess and manage complex pain closer to home.					
7	Canada Quebec, Montreal	CHU Sainte-Justine	Not Provided	Not Provided	Marie-Joëlle Doré-Bergeron mdoreb@yahoo.ca	- Ped. Nurse - Ped. Pain MedSpecialist - Pediatrician - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist	- Outpatient Services - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	Our multidisciplinary pain clinic sees patients with various pathologies. The initial assessment, as well as follow ups, are done as a group, meaning the MDs, nurse, PT and psychologist all see the patient together. We have a pediatric psychiatrist who is trained in chronic pain, as well as a pediatrician who is also trained in chronic pain and an anesthesiologist. Hospitalized patients can also be seen by members of our team, but we currently don't have an inpatient or outpatient intensive rehab program.					
8	Canada Quebec, Montreal	Montreal Children's Hospital	Chronic Pain Service	https://www.thechildren.com/departments-and-staff/departments/department-of-pain-management-pediatric-chronic-pain-management_01	Pablo Ingelmo Pablo.ingelmo@mcgill.ca Rebecca Pitt Rebeca.pitt@muhc.mcgill.ca	- Ped. Anesthesiologist -Anesthesiologist - Ped. Nurse - Ped. Pain Med Specialist - Ped. Physical therapist - Ped. Psychologist	- Outpatient Services -Telehealth -Hypnosis - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	The Chronic Pain Service (CPS) consists of a clinical, educational and research multidisciplinary team. The CPS team strives to optimize physical and psychological function, normalize sleep and social function (school attendance and age dependent quality of life), and increase levels of activity, while assisting the management of pain. The team guides patients and families toward successful strategies to understand and manage pain and to modulate negative behaviors regarding pain and disability. Improved functioning is the most important outcome in the treatment. Of interest, patients generally report significant improvement in function before reporting decreases in pain.					
9	Canada Nova Scotia, Halifax	IWK Health Centre	Pediatric Complex Pain Clinic	http://www.iwk.nshealth.ca/contacts#/content/pediatric-pain-management	Dr. Allen Finley Allen.finley@iwk.nshealth.ca	- Ped. Nurse - Ped. Pain Med Specialist - Ped. Physical Therapist - Ped. Psychologist	- Outpatient Services -Telehealth - Acupuncture - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	Referral from family physicians or specialists. Patients assessed by the interdisciplinary team in a combined session, followed by individualized assessment and treatment.

10	Canada Ontario, Hamilton	McMaster Children's Hospital	Pediatric Chronic Pain Program	Not Provided	Sheri Findlay findls@mcmaster.ca	- Ped. Nurse - Ped. Occupational Ther. - Ped. Pain Med Specialist - Pediatrician - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist - Ped. Rehab Medicine - Ped. Social Worker - Child Life Specialist	- Outpatient Services - Occupational Therapy - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	The program offers an interdisciplinary assessment. If appropriate, interdisciplinary care is offered using a biopsychosocial approach. Patients will work with PT and OT if needed and have access to social work and psychology. The psychological treatment is a structured 3-4-month program that is goal-oriented and uses pain education and CBT principles to improve function and pain-coping.					
11	Canada Ontario, Ottawa	Children's Hospital of Eastern Ontario	Chronic Pain Program	https://www.cheo.on.ca > clinics-services-programs > chronic-pain-service	Christine Lamontagne clamontagne@cheo.on.ca Marie Eve Theriault mtheriault@cheo.on.ca Megan Greenough mgreenough@cheo.on.ca	- Ped. Anesthesiologist - Ped. Nurse - Ped. Occupational Ther. - Ped. Pain Med Specialist - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist - Ped. Social Worker	- Outpatient Services - Telehealth - Occupational Therapy - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	Program goals: Help families understand how to manage chronic pain with a pharmacological, physical and psychological approach. Provide patients and families with the tools needed to take control over the pain and cope with it effectively. Support patients and families in their return to normal functioning and age-appropriate activities (school, sports, social activities, jobs, chores) with a tailored approach including group and individual interventions.					
12	Canada Ontario, Toronto	Hospital for Sick Children	Chronic Pain Clinic	http://www.sickkids.ca/pain-centre/Patients-and-Families/Chronic%20Pain%20Clinic/index.html	Fiona Campbell, MD Fiona.campbell@sickkids.ca Geraldine Cullen-Dean gcdean@sickkids.ca	- Ped. 		details see our treatment Manual: Dobe/Zernikow (Editors) Practical Treatment Options for Chronic Pain in Children and Adolescents: An Interdisciplinary Therapy Manual; 2nd issue, Springer 2019.					
HUNGARY							
15	Hungary Budapest	Bethesda Children's Hospital	Not Provided	https://www.bethesda.hu/ambulancia/fajdalomterapias-ambulancia	János Major Major.janos@bethesda.hu	- Ped. Anesthesiologist - Ped. Gastroenterologist - Ped. Nurse - Ped. Pain Med Specialist - Pediatrician - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist	- Outpatient services - Pharmacologic - Physiotherapy - Psychological Treatment
	Program description	The program has been running since 2013 as an outpatient clinic. We treat all types of pediatric chronic pain disorders in a multidisciplinary team. We are currently planning our inpatient department which will be finished in 2022.					
ISRAEL							
16	Israel Tel Aviv	Sourasky Medical Center and Dana Dwek Children's Hospital	The Multidisciplinary Pediatric Pain Clinic	https://www.tasmc.org.il/Surgery/Anesthesiology/Pages/Kids-Pain.aspx	Daniel Stocki danielstocki@gmail.com	- Ped. Anesthesiologist - Ped. Physical Therapist - Ped. Psychologist	- Outpatient Services - Physiotherapy - Psychological Treatment
	Program description	Multidisciplinary pediatric outpatient clinic seeing patients from all over Israel. We provide consultations for patients and professionals, guidance and outpatient physiotherapy and psychological interventions.					
NETHERLANDS							
17	Netherlands Limburg	Adelante-Zorggroep, Maastricht University	2B-active	https://www.adelante-zorggroep.nl/nl/expertisecentrum-pijn-en-revalidatie/revalidatie-bij-chronische-pijn/#	Jeanine Verbunt Jeanine.verbunt@maastrichtuniversity.nl Jeroen Bekkers j.bekkers@adelante-zorggroep.nl	- Ped. Nurse - Ped. Occupational Ther. - Ped. Physical Therapist - Ped. Psychologist - Ped. Rehab Medicine	- Inpatient Intensive - Day Treatment Rehab - Occupational Therapy - Physiotherapy - Psychological Treatment
	Program description	2B-active is a multidisciplinary pain rehabilitation program with active treatment sessions for both adolescents and their parents. This program aims to restore the adolescents' age-appropriate functional abilities by systematically reducing pain-related fear and catastrophic thinking through gradually exposing adolescents to fear-provoking daily activities and movements. For adolescents, the treatment entails an intake session with a consultant in rehabilitation medicine, screening, and 14 program sessions of 60 minutes (an education session, and twelve graded exposure in vivo session), during a 7-week period. For parents, three parent meetings are offered in parallel with their adolescents' program, in a group or individually.

18	Netherlands Zuid-Holland	Erasmus Medical Centre-Sophia Childrens Hospital	Kinderpijncentrum Erasmus MC-Sophia	https://www.erasmusmc.nl/nl-nl/sophia/patientenzorg/centra/kinderpijncentrum	Tom de Leeuw T.deLeeuw@ErasmusMC.nl Agi Török A.Torok@ErasmusMC.nl Bernadette de Mol B.deMol@ErasmusMC.nl	- Ped. Anesthesiologist - Ped. Nurse - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist - Ped. Rehab Medicine - Ped. Physician Assistant	- Outpatient Services - Day Treatment Rehab - Hypnosis - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	After referral to our pain Clinic some questionnaires are sent. Then triage is done to decide if the patient can be seen by a single professional or multidisciplinary. If the patient is examined on the first visit by our physician assistant, advice for physical therapy, medication or pain education can be given. Also, smaller interventions like trigger point, TENS, iontophoresis or hypnosis are done. If the patient is seen by the multidisciplinary team (more complex patients) this happens first by anesthesiologist-pain specialist together with physical therapist and then by a psychologist. Then, the team discusses the best treatment option, and this is communicated to patient and parents. Several treatment options are possible, such as: physiotherapy, medication or psychological treatment.					
NEW ZEALAND							
19	New Zealand Auckland	Starship Children's Health	Starship Complex Pain Service	https://www.starship.org.nz/health-professionals/paediatric-pain-service/	Ross Drake rossd@adhb.govt.nz	- Ped. Nurse - Ped. Occupational Ther. - Ped. Pain med specialist - Pediatrician - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist - Ped. Palliative Care Spec	- Outpatient services - Inpatient intensive - Telehealth - Hypnosis - Occupational Therapy - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	The Complex Pain Service at Starship Hospital is a national service for children and adolescents (0-15 years) with all types of persistent pain comprising of an inter-professional team led by a Paediatric Pain Medicine Specialist. The service is primarily outpatient but children with persistent pain who are inpatients will also be assessed and those who are significantly disabled can be started on a comprehensive, intensive graduated functional rehabilitation programme as part of their admission. Referral acceptance takes into consideration the ability of the child and family to participate in a graduated pain management rehabilitation programme. The services uses a consultation, shared care, responsible clinician and advisory model that matches the rehabilitation needs of the child.

Psychologist - Pediatrician	- Outpatient services - Pharmacologic - Physiotherapy - Psychological treatment
	Program description	Outpatient program for pediatric chronic pain patients with or without somatic diagnosis. Interdisciplinary assessment of patients based on a bio-psycho-social model of chronic pain and recommendations for individualized multimodal chronic pain therapy with focus on physical therapy and psychotherapy. Multimodal therapy takes place within our program or with external specialists near to home in close cooperation.					
UNITED KINGDOM							
22	United Kingdom England, Leeds	Leeds Children's Hospital	Paediatric Pain Service	Not Provided	Dr Alison Bliss Alison.bliss@nhs.net Lucy Finn Lucy.finn@nhs.net	- Ped. Anesthesiologist - Adult Anesthesiologist - Ped. Nurse - Ped. Occupational Ther. - Ped. Pain med specialist - Ped. Physical therapist - Ped. Psychologist - Pharmacist	- Outpatient services - Inpatient Intensive - Day Treatment Rehab - Acupuncture - Hydrotherapy - Occupational Therapy - Pharmacologic - Physiotherapy - Procedures - Psychological Treatment
	Program description	All referrals are triaged as routine or urgent (urgents seen within 7 weeks). All new patients are seen by full MDT (medic, CNS, PT, OT, psychologist), then offered individual and/or group work with therapists, either locally if available or here with our team, therapy co-working offered if required. In patient therapy/interventional work offered if needed. Follow-up by individual or MDT clinic reviews as needed.					
23	United Kingdom England, Middlesbrough	James Cook University Hospital	Not Provided	Not Provided	Rosey Ferris rosey.ferris@nhs.net	- Ped. Pain Med Specialist - Pediatrician - Ped. Physical Therapist - Ped. Psychologist	- Outpatient Services - Pharmacologic - Physiotherapy - Psychological Treatment

#	Location	Hospital	Program	Website	Contact	Professionals	Services
	Program description	Outpatient pain programme accessed via a referral to a monthly Multi-Disciplinary clinic. Referrals are only taken from the local area (North and South Tees and Hambleton and Richmondshire) due to clinic resourcing. A plan is developed at MDT for input from physiotherapy and psychology. The input usually begins with psycho-education delivered individually with the patient and their parents/caregivers.					
24	United Kingdom England, Newcastle upon Tyne	Great North Children's Hospital	Not Provided	www.newcastle-hospitals.org.uk	Sachin Rastogi Sachin.rastogi@nuth.nhs.uk	- Ped. Anesthesiologist - Ped. Nurse - Ped. Pain Med Specialist - Ped. Physical Therapist - Ped. Psychologist	- Outpatient services - Day treatment rehab - Hydrotherapy - Pharmacologic - Physiotherapy - Procedures - TENS
	Program description	Multi-disciplinary clinic in a tertiary referral large university teaching hospital. It covers a large geographical area in the north of England. We accept referrals from family doctors and all paediatric services across the region. Patients are seen in an MDT clinic for an initial assessment then bespoke treatment plans are made and implemented. It is NHS funded, so it is free for all patients.					
25	United Kingdom England, Oxford	Oxford University Hospitals	Oxford Centre for Children and Young People in Pain	https://www.ouh.nhs.uk/childrens-rehabilitation/services/pain-management/default.aspx	Dr Konrad Jacobs Konrad.jacobs@ouh.nhs.uk	- Ped. Occupational Ther. - Pediatrician - Ped. Physical Therapist - Ped. Psychiatrist - Ped. Psychologist - Ped. Rheumatologist - Ped. Art Therapist	- Outpatient Services - Inpatient Intensive - Day Treatment Rehab - Hydrotherapy - Occupational Therapy - Pharmacologic - Physiotherapy - Psychological Treatment - Yoga
	Program description	Patients are referred to us by their GPs, rheumatology, orthopaedics, Spinal, Gastroenterology, neurology and neurosurgery. They enter our service via our multi-disciplinary pain clinic. This is followed by a pain education class which the whole family can attend. During this class we discuss the nature of pain, the difference between acute and chronic pain and our philosophy to treatment. We then offer outpatient appointments with physiotherapy, occupational therapy, and clinical psychology, based on the need of the child and the family. Some of our patients then come to one of our intensive rehabilitation programmes. Our programme is largely non-medical. Exposure to feared movements, activities and situations is a big part of the programme.					
26	United Kingdom England, West Sussex	Western Sussex Hospitals NHS Foundation Trust	Paediatric Chronic Pain team	https://www.westernsussexhospitals.nhs.uk/services/paediatrics/west-sussex-paediatric-chronic-pain-service/	Rhiannon Joslin Rhiannon.joslin@wsht.nhs.uk Ros Foulds Ros.foulds@wsht.nhs.uk	- Pediatrician - Ped. Physical therapist - Ped. Psychologist - Ped. Team Secretary	- Outpatient services - Inpatient intensive - Hydrotherapy - Physiotherapy - Psychological treatment - Yoga
	Program description	The Paediatric Chronic Pain Service (PCPS) is a specialist multidisciplinary service for children and young people experiencing chronic musculoskeletal pain. Children and their parents/caregivers are offered an initial assessment in clinic with the whole team. We offer hour-long appointments to review medical					

#	Location	Hospital	Program	Website	Contact	Professionals	Services
		history, medication and investigations, and conduct a thorough physical examination together with an assessment of day-to-day functioning at home and at school, college or work. A coordinated treatment and rehabilitation programme is offered to those children who require focused therapeutic intervention. Each programme is individualised. The focus of rehabilitation is to return to full function despite pain.					
27	United Kingdom Scotland, Aberdeen	Royal Aberdeen Children's Hospital	Not Provided	Not Provided	Graham Wilson Graham.wilson@nhs.net	- Ped. Anesthesiologist - Ped. Nurse - Ped. Physical therapist - Ped. Psychologist	- Outpatient services - Inpatient intensive - Day treatment rehab - Pharmacologic - Physiotherapy - Psychological Treatment
	Program description	This is a predominantly outpatient service covering a large geographic area. We use telemedicine - telephone and video support to practitioners and patients. We focus on a biopsychosocial approach to pain management.					
UNITED STATES							
28	United States Arkansas, Little Rock	Arkansas Children's Hospital	Not Provided	Not Provided	Aru Reddy areddy@uams.edu	- Ped. Anesthesiologist - Pediatrician - Ped. Psychologist	- Outpatient Services - Inpatient Intensive - Pharmacologic - Physiotherapy - Psychological Treatment
	Program description	This is a program that is in the initial stages of redevelopment. We do have a pediatrician with management of patients who are on hospice being her specialty, and also have a psychologist in the outpatient area and anesthesiologists take care of the chronic pain inpatients.					
29	United States California, Los Angeles	Children's Hospital of Los Angeles	Pain Medicine	https://www.chla.org/pain-medicine	Eugene Kim, MD eugekim@chla.usc.edu painclinic@texaschildrens.org	- Ped. 	Program description	We bring together a team of board-certified anesthesiologists, nurse practitioners, physician assistants and psychologists to meet the needs of each child or adolescent with pain issues or chronic illness. Together with families, our specialists will create a personalized treatment plan. This plan may include medications or procedures along with complementary therapies such as psychotherapy, biofeedback, occupational and physical therapy solely dedicated to the management of pain. Our chronic pain management service uses a multidisciplinary team to evaluate patients in our Outpatient Care Center. The chronic pain service offers a short-term inpatient rehabilitation program for youth with Complex Regional Pain Syndrome (CRPS) and related chronic pain conditions limiting functioning.

	Program description	The Abdominal Pain Program at Children's Mercy is a unique clinical and research program devoted to the evaluation and treatment of pediatric abdominal pain. In the program, new patients are assessed by a gastroenterologist and psychologist at the same time, in the same clinic visit. We screen/evaluate for a wide variety of potential biologic, psychologic, and social contributors to pediatric abdominal pain. This allows us to establish a comprehensive plan unique to each child or adolescent patient we see. At the end of the evaluation visit, families are presented with a single, integrated treatment plan. Interventions include medication management, biofeedback assisted relaxation training, cognitive-behavioral therapy, graduated school re-entry, and physical therapy, among others.

	Program description	The inpatient chronic pain team at Children's Specialized Hospital promotes wellness of children and adolescents with chronic pain by teaching them strategies to manage pain and encourage functional activity. The inpatient program is for children, adolescents, and young adults with chronic pain who continue to have significant pain and dysfunction despite trials of consistent outpatient therapies. This evidence-based program focuses on regaining function, de-emphasizing pain, and developing appropriate pain management skills. The duration of the program is typically four weeks and employs a multidisciplinary model to increase function, decrease pain and sensitivity, and promote the use of adaptive coping skills for return to home, school, community and leisure.

Rehab Medicine - Ped. Vocational Couns. 	<ul style="list-style-type: none"> - Outpatient Services - Occupational Therapy - Pharmacologic - Procedures - Psychological Treatment
	Program description	The program at the AFCH pain clinic has both inpatient and outpatient multidisciplinary pain medicine programs. We see all types of pain as an outpatient and also have two separate multidisciplinary clinics for Complex Regional Pain Syndrome (CRPS)/complex rehab issues and Ehlers Danlos Syndrome (EDS). For inpatient we offer intensive CRPS treatments as well for chronic pain in which function is very decreased. We offer all procedures that would be necessary as well as manage medications. Psychology and PT/OT are mainstays of the program and patients see them as well.

	Program description	Our Program combines knowledge in specialties like: Anesthesiology, Advanced Practice Nursing, Psychology, Pain management, Individual and family therapy, Physical and occupational therapy, and Integrative Medicine. In addition to using pain medicine when appropriate, we will help your child cope with discomfort by using non-medication interventions, such as relaxation, distraction and cognitive behavioral techniques. Our most significant goal is to help your child return to leading a normal lifestyle.					

Services list

In each cell, there is a list of centers offering that service. Click on the name of the clinic to see the full information.
